# A Description of Scourging/Flogging

*Scourging was a legal preliminary to every Roman execution. The usual instrument was a short whip (flagellum) with several single or braided leather thongs of variable lengths, in which small iron balls and sharp pieces of sheep bones were tied at intervals. For scourging, the man was stripped of his clothing, and his hands were tied to an upright post. The back, buttocks, and legs were flogged by two soldiers. The severity of the scourging was intended to weaken the victim to a state just short of collapse or death.*

## ***-Description Continued-***

***As the Roman soldiers repeatedly struck the victim's back with full force, the iron balls would cause deep contusions, and the leather thongs and sheep bones would cut into the skin and Subcutaneous tissues. Then, as the scourging continued, the lacerations would tear into the underlying skeletal muscles and produce quivering ribbons of bleeding flesh, Pain and blood loss generally set the stage for circulatory shock. The extent of blood loss may well have determined how long the victim would survive on the cross. (the-crucifixion.org)***

# Make Your Life Right with God

*Romans 6:4-5 We were buried with Him through baptism into death, that just as Christ was raised from the dead by the glory of the Father, even so we also should walk in newness of life. 5 For if we have been united together in the likeness of His death, certainly we also shall be in the likeness of His resurrection*
